Signed and Correspondingly Numbered Virtual Relief  
Leather Bound Box with Bas Relief

Erin Taylor Editions is proud to announce the publication of this highly anticipated Opus Compendium "The Artworks of Bill Mack". Through the years Bill Mack has published many unique catalogues of his work and career. This project exemplifies the apex of this artist's enormous multi-creative talent. The included release pages will detail the result of a project nearly two years in the making. It is a book not simply about Bill Mack's art, it is his art. The Deluxe Edition includes a special leather bound box case with a limited-edition bas-relief sculpture adorning the cover, a limited-edition Virtual Relief ready for framing and four tipped-in Virtual Relief works on the inside that can also be framed individually or as a "tetraptych" grouping of all four. The Regular edition includes all of the above without the deluxe case or limited-edition Virtual Relief.
