### *New Dynamic Artworks*

*Bill Mack*

We are pleased to showcase the newest series of mixed media drawings and paintings by our featured artist, Bill Mack. His renderings of traditional female images, and his detailed studies of horses, elephants and other animals are studies for potential future reliefs. Mack's renderings are accomplished in oil pencil, acrylic and oil, or a combination of all three, and again demonstrate Mack's unique talent as a master draftsman, beyond his well-known mastery of the Relief artform.
