

Success For Bill Mack/Gary Welton Exhibition in Key West

Within an otherwise overwhelmingly *successful exhibition*, Bill Mack has once again brought beauty and passion to the city of Key West, Florida.

One of Bill Mack’s most impressive accomplishments is the fusion between his relief sculpture and dynamic sense of colorful beauty as seen in his most recent creations of such original works “Silver Beaded Essence” and “Rose Essence” as seen below.

Many showed up for Bill Mack and Gary Welton this weekend for what turned out to be one of Bill Mack’s most impressive Art Exhibitions of the year. As one client said, “There’s only one Bill Mack, and we’re excited to have him in our city showing his artwork and having a good time with us”. With the annual ‘Fantasy Fest’ just outside the doors of the gallery, one would think all attention would be outside. This would be proven to be far from the truth as hundreds of patrons and collectors made their way into the show to meet Bill Mack and Gary Welton for photos, autographs, and dedications for artworks purchased.

When asked what Bill Mack enjoyed most when visiting Key West, Bill replied “The people”. “There is creativity and kindness, and an overall artistic sense of awareness in this town” Bill Mack has had several shows in Key West and an overall success with his artworks. Gary Welton, Bill Mack’s accompanying artist, has shared equal success with his artworks. As the two artists continue their exhibition over the weekend, more and more young and ambitious on-lookers approach Bill Mack with questions of style, recognition, and in most cases, a photo showing their recent purchase of Bill Mack artwork.

As Bill Mack continues to reinvent himself, so does the demand for acquiring his works for all ages and all levels of artistic sensibility. Bill’s works are for all to enjoy as novice or seasoned collectors.
