

RENAISSANCE MAN

Bill Mack
2018

Leonardo da Vinci's natural genius crossed so many disciplines that he epitomized the term "Renaissance Man", the title of Bill Mack's newest edition. Today, Da Vinci is probably best known for his art, including the *Mona Lisa* and *The Last Supper*. Art, Da Vinci believed, was indisputably connected with science and nature. Da Vinci's quote, "The spirit must move with the hand or there is no art," has been incised into the background of Mack's new relief, *Renaissance Man*. Artwork measures approximately 28" H x 36" W.
